

## **Press Release**

### **Smander.com makes CE compliance as easy as online shopping!**

**Baden , Austria, May 18, 2024** – Smander.com introduces a groundbreaking solution for small businesses facing the challenge of achieving CE compliance for their products. The new service, "GETsmandered," offers a targeted and cost-effective way to navigate the often complicated and time-consuming CE assessment process.

Many small manufacturers struggle with the demands and complexity of the CE certification process. Even determining which directives apply to a product can be a significant hurdle. Smander provides services tailored to the needs of small businesses, startups, and makers.

"Our goal is to lower the barriers to CE compliance and enable manufacturers to focus on developing great products," says Clemens Mayer, founder of Smander. The innovative group-based approach of "GETsmandered" significantly reduces costs, making the service affordable for small businesses.

Interested parties can register on the website now to be notified when the service becomes available.
